## Description :

Prsentation de l'diteur2nd EditionIn the year 2081 our planet survived global warming of an apocalyptic scale. When the dust settled and the water receded Dr. Anthony Smith, one of only a few hundred survivors of GWI, started society anew. Having come to the conclusion that injudicious breeding played a huge role in the destruction of Earth as we knew it in the twenty first century, he worked closely with other survivors to isolate the Dionysus gene. This gene has the ability to manipulate human DNA to ensure that all male children be born gay, and all female children be born lesbians. A new society is born. In the year 2300 Dr. Smiths descendants are ushering in the twenty fourth century having maintained control of the government that still rules society. Twins, Aiya and Aiyan, are preparing to meet their matches and take control of House Gaeland, the current ruling House. But not everything is as it seems. Love is Love... it knows no gender and

doesn't conform to restrictions or boundaries. Aiyan has found his soul mate in Kaden, the prince of House Devi that he is matched with and eventually marries. But when the person Aiya falls in love with tests the boundaries put in place after GWI, all hell breaks loose. And in the midst of one secret unraveling, another will emerge. There is a growing anomaly that threatens to destroy over two hundred years of progression. This anomaly is known as Opposites. Opposites is an adult, dystopian majorly M/M series that encompasses all manners of relationships (including M/F and F/F). In this world logic is irrelevant, love is key, and things get broken just ask Aiyan and Kaden. Other books in the series and reading order... Opposites - book 1 The Library - book 1.5 Appearances - book 2 The Cellar - book 2.5 Snapped - book 3 coming January 2017
